

The following pathways were designed for continuing students finishing their programs. For new students please go to the ACT Fall I pathways.

Evening, Weekend ... Working Adults

YOUR CHOICE

The 2-year ACT Program

- ✓ Are you looking for a full-time evening or weekend program that prepares you for university transfer in two years?
- ✓ Are you a working professional looking to advance your career or to prepare for a new one?
- ✓ Are you looking for high-quality, flexible instruction with ample opportunity to interact with your professors?

The ACT program provides a two-year schedule of coursework designed for the highly motivated full-time student who is interested in a non-traditional pathway to degree completion and/or transfer. The ACT program combines evening or weekend classes with online instruction for a variety of completely transferable two-year pathways for students with demanding schedules.

Most ACT classes are scheduled in 8-week sessions, but a few are scheduled for 16 weeks. In each session, the program includes evening and/or weekend classes and often will offer a hybrid class (one meeting per week, and three hours online per week). A number of courses are scheduled fully online.

The mixed format of ACT offers flexibility to be a full-time student and to complete entire degree/certificate programs during evenings, weekends, or a combination of both.

Please note that some classes, such as math or science, are on campus only and usually in a 16-week format.

Students are encouraged to attend one of the on campus informational sessions, check the website for dates and times.

ACT EVENING AND/OR WEEKEND FORMAT

Most ACT courses are scheduled on an 8-week basis, are intensive in nature, and meet the same high standards of courses scheduled during the traditional semester.

Many ACT courses are hybrid, which means students are expected to:

1. Attend 8 face-to-face meetings at West, and
2. Spend about 3 hours online per week.

Students need regular access to the Internet to complete their online class work. Computers with Internet access are available in the Heldman Learning Resource Center (HLRC). The Canvas course management system is used for the online component of the course.

ACT PATHWAY TO SUCCESS

Accelerated College Transfer Pathways

The ACT program offers multiple two-year pathways for the full-time evening/weekend student to complete the following degrees while simultaneously fulfilling IGETC requirements for transfer to UC and CSU campuses:

California Community College students that have earned a transfer associate degree (AA/AS-T) are given priority consideration when applying to a local CSU campus in a baccalaureate (BA) degree program that has been deemed similar to the student's community college area of emphasis.

Associate of Science Degree for Transfer (AS-T):

- Administration of Justice
- Business Administration
- Early Childhood Education
- Public Health

Associate of Arts Degree – Liberal Arts & Sciences:

- Economics
- Health Professions
- Psychology
- Sociology

Associate of Science in Health Science

- Health Science

Certificate:

- IGETC

Please meet with a WLAC counselor to confirm your student education plan and to insure you are on the right pathway for success.

GETTING STARTED

1. Submit an "Application for Admission" to the College.

Prospective students can apply in the Admissions Office or online at www.wlac.edu.

2. Take the College Assessment Test.

The college assessment test is designed to help counselors assess your English and Math skills and determine a placement level. The ACT program offers only college-level English and Math courses. Prospective students are encouraged to take the assessment test as soon as possible to determine if prerequisite English or Math courses are necessary.

3. Visit a college counselor.

Prospective and continuing students must consult with a counselor to ensure optimal educational planning. Students who have completed college coursework will need to consult with a counselor to evaluate transcripts and identify coursework for degree completion. Appointments can be scheduled in the Counseling Office or online.

4. Register in ACT classes for the Pathway of your choice.

The following pages present the **Fall 2019** course schedules for each of the ACT pathways. Students may register for ACT classes in the Admissions office or online. Enrollment is open to all students.

5. Attend a campus orientation.

We will discuss transferring to four-year universities and feature our Pathways Program to the California State University system, Private Universities, and the pathways for certain majors.

For more information:

Associate of Science Degree - for Transfer (AS-T)

ADMINISTRATION OF JUSTICE (ADT w/CSU GE Breadth and Transfer Pathway)

The Administration of Justice transfer program is a two-year associate degree pathway that makes it easier for students who would like to earn an Associate in Science for Transfer (AS-T) degree that is fully transferable to the California State University system. Students will complete a minimum of 18 semester units in the major as determined by each California community college, and an approved set of 42 units of general-education requirements (CSU GE-Breadth). Students who successfully complete the Associate in Science Degree in Administration of Justice for Transfer will be given priority consideration for admission to a California State University. Students should consult with a counselor regarding specific course requirements for their particular transfer university lower division requirements and/or career goal.

Associate of Science Degree - for Transfer (AS-T)

EARLY CHILDHOOD EDUCATION (ADT w/CSU GE Breadth and Transfer Pathway)

This two-year pathway is designed for students who are interested in teacher preparation. This pathway uses the CSU statewide lower division transfer pattern for the Liberal Arts major at CSU Dominguez Hills. Primary education (K-3rd) and elementary education (K-5th) require a multiple-subject credential whereby middle and high school teachers require a single subject credential.

This program also makes it easier for students who would like to earn an Associate in Science Transfer (AS-T) degree in Early Childhood Education. Students who successfully complete the Associate in Science Degree in Early Childhood Education for Transfer will be given priority consideration for admission to a California State University. Students should consult with a counselor regarding specific course requirements for their particular educational and/or career goal.

Associate of Arts Degree - for Transfer (AA-T)

ECONOMICS (ADT w/CSU GE Breadth and Transfer Pathway)

This two-year pathway prepares students for a variety of careers in business and government as well as preparing students for transfer to one of the many California State Universities. Coursework in this pathway is designed for students who are interested in teaching in elementary and secondary schools. Students who successfully complete the Associate in Arts Degree in Economics for Transfer will be given priority consideration for admission to a California State University. Students should consult with a counselor regarding specific course requirements for their particular educational and/or career goal.

PSYCHOLOGY (ADT w/CSU GE Breadth and Transfer Pathway)

The Associate of Arts degree in Psychology for Transfer is designed to prepare students who wish to transfer to a California State University (CSU) to pursue studies in Psychology. Although most entry level positions require either a Master's Degree or PhD., there are several job opportunities along the way after earning an A.A. Degree such as working in probation with minors, social work, personnel, and numerous opportunities for internships. Students who successfully complete the Associate in Arts Degree in Psychology for Transfer will be given priority consideration for admission to a California State University. Students should consult with a counselor regarding specific course requirements for their particular educational and/or career goal.

HEALTH AND SCIENCE (ASHS)

Associate of Science in Health Science (ASHS) is a degree for students who wish to complete entrance requirements for health career programs. These career options include, but are not limited to, nursing, radiological sciences, physical therapy, occupational therapy, respiratory therapy and dental hygiene. The degree offers students a broad general education, and provides basic knowledge in microbiology, human anatomy, chemistry, physiology, and nutrition. Students should consult with a counselor regarding specific course/major requirements for the particular educational and career goal. To earn an Associate of Science Degree in Health Science, students should also review the Associate in Science in Public Health Science for Transfer (AS-T).

Certificate of Achievement for IGETC

The IGETC certificate of achievement is designed to create a pathway to our associate degrees for transfer programs and is awarded to students who receive full certification of the Intersegmental General Education Transfer Curriculum (IGETC) Requirements. It is designed for students who intend to transfer to either the university of California (UC) or to the California State University system (CSU), thereby completing all the lower division general education requirements required by both the UC and CSU system towards a Bachelor's Degree. Students are encouraged to meet with a counselor to determine a major and their eligibility for transfer. (UC system requires a Language)
