Course Description: An introduction to the ancient practice of yoga, focusing on asanas (yoga postures) and diaphragmatic breathing, leading to improved health and greater mind and body awareness.

Course Objectives:

- *To demonstrate proper technique and body alignment for standing, balancing, seated, supine and prone poses and for inversions and twists
- *To increase flexibility, strength and range of motion in the joints
- *To identify and define terminology specific to the practice of yoga

EVALUATION:

Attendance/Participation=50%

Journal=25%

Practical Final=25%

Attendance/Active Participation:

Attending class is the most important part of your grade. Your grade for this portion of the class will be as follows:

0-2 absences=A

3-4 absences=B

5-6 C

6-7 D

Making up a missed class: You may make up an absence by attending another activity class and returning a form signed by the instructor. A limit of three classes may be made up through attendance at another class and only with the approval of the instructor of record for that class. ***Attention: No Make-ups will be allowed during the last week of the session!!***

Practical Final: Performing poses learned in class as a group. A study guide will be given.

Journal: The journal has 2 parts-your own home practice and also answering questions that I provide in class. For your own practice, record the date and what you did (can be meditation, savasana, pranayama and/or asanas.) The questions will be open-ended reflections about your experience in the class. The journal can be handwritten or typed. The journal questions will be posted on my blog. I also have yoga information on my blog as well (so some of the answers will be on the blog too!).

Extra Credit: Take a YOGA class with another teacher and write a 1 ½ -2 page paper about your experience. Please check schedule for other class times.

Or perform Seva, service, by volunteering at a nonprofit for 12 hours during the semester.
