COURSE OUTLINE

COURSE DESCRIPTION (3 Units)

History 11 is a survey of political, economic, cultural and foreign policy areas of America from its roots in Europe through the Civil War and the Reconstruction Period. . This course fulfills the state graduation requirement in U.S. History and state and local government. This course can be taken in lieu of H41 & H43.

CURRICULAR PLACEMENT – UC: CSU

PURPOSE FOR TAKING THIS COURSE: STUDENT SUCCESS

This course will help prepare students toward achieving their academic goals in college of graduating and transferring to any university of their choice. The education and knowledge of History opens up the future to those students who want to acquire and determine their own future, wherein they will make a positive and significance difference in their own society, and, globally as diplomats, lawyers, community leaders, and positive role models for others. In this course you will learn how to: think critically, understand how to take good lecture notes and apply what you have learned outside of the classroom to: your home, friends, and family.

COURSE OBJECTIVES & STUDENT LEARNING OUTCOMES:

A. GENERAL COURSE OBJECTIVES:

1. To examine how the history of the past influences the political and social institutions of the present.
2. To examine the prevalent themes in U.S. History and delineate between fact, myth, and interpretation.
3. To enable the student to gain insight into the integral role played by diverse and minority populations in the creation and development of the United States.
4. To facilitate the student's understanding of the necessity of critical thinking for the solution of problems and for the discrimination among values.
5. To enhance the student's competence in exercising the privileges and responsibilities of democratic citizenship.
6. To stimulate the student to read more widely and deeply into the field of African-American History.
7. To facilitate the student's understanding of the necessity of critical thinking for the solutions of problems and for the discrimination among values.
8. To ascertain the origin and basic structure of the U.S. constitutional system, with specific emphasis on the relationships between federal, state and local governments. Exam (partial take-home and in-class).

B. COURSE SPECIFIC STUDENT LEARNING OUTCOMES:

SLO 1: The student will be able to compare and contrast the 16th century theological and secular reformations and their impact upon the subsequent English colonization, in America, during the 17th & 18th centuries.

SLO 2: The student will be able to clarify, debate and historically document and interpret: (1) When and why the Bill of Rights was added to the U.S. Constitution and (2) will explicitly elaborate upon Amendments 9 & 10's relevance and impact upon the current 21st century, especially, in the economic and political environment of the United States.

GUIDELINES FOR GRADING THE QUIZZES AND EXAMS

I. Objective Quizzes: A = 100 -90; B = 89 – 80; C = 79 – 70; D = 69 – 60; F = 59 and under

II. Essays: Quizzes and Final Exams:

5 = Excellent: In both written and verbal form, the student displays an exemplary knowledge of historical facts as they apply within the local and global socio-political and economic context. In the evaluation of historical data, the student demonstrates organizational coherency as to the data’s relevance to past, present and future populations and societies. The content and language of the students work indicates that he/she understands not only the purpose of the assignment/exam, but can ably communicate that understanding on the college level. The students work reflects not only insight, but a distinct ability to deductively, and correctly employ (95 %+) chronological accuracy in the assessment of historical events and situations. Students in the class can, in the written or verbal form, successfully (at least 80% of the time) discuss/debate the pros and/or cons and - give the meaning and implications of a given historical subject.

4 = Good: The student has well above average knowledge of the historical facts and does know how to apply his/her work within the global socio-political and economic context. While the student does demonstrate a clarity and coherency in the evaluation of data, sometimes there are some errors in relating the data to the past and present. The student does comprehend the purpose and intent of the work and does communicate that well in any given assignments. Student does deductively and correctly employ chronological accuracy most (85%+) of the times, but the assessment of the events/situation is still valid. In class, this student can employ and discuss (70%) pro or con and give the meaning and implications of most of the given historical subject.

3 = Average: The student has knowledge of historical facts and does comprehend the global context, but does not adequately know how to apply the socio-political and economic factors within that context. The student has some organizational coherency, but it is not consistent. The student can communicate on the college level, but has a problem in understanding and organizing the facts, which leads to problems in working with the purpose/content of the assignment. The student comprehends the importance of chronological accuracy, but does not employ it correctly or consistently (50%+), thus resulting in problems with the assessment of any given historical event or situation. In class this student seldom wants to be gets involved in speaking re: a pro or con situation. But the student still does the assignment(s).

2 = Below Average: Student seems to have some knowledge about historical facts, but has no idea about how to apply that knowledge within the given context. This student has problems with organizing his/her thoughts, especially in a coherent way. The student can communicate, but seems not to have studied or have the ability to assess what is expected (even after it has been reviewed several times during class). Students work displays a multitude of problems including: lack of comprehension about the importance of accurate chronology in historical interpretation(s), poor language skills for a college student, incomplete and/or missing assignments and very poor grades on written work.

1= Failure: Incomplete or not submitted. An abundance of plagiarism. It appears that the student does not comprehend or is ambivalent about the actual subject matter of the assignment.

The student rating scale (above) was based on written works: comprehensive Final essay exam, Quizzes and Midterm. The purpose of this assignment was to get the students to think critically, historically examine and evaluate, while teaching themselves organization and how to appraise the information.
