Additional **online resources for TracDat** including a Handbook and more videos can be found at <http://www.wlaac.edu/committees/slos/Course-SLOs.aspx>
- Program SLOs Update:** We have met with every PSLO participant individually and discussed the Spring 2018 project, ePortfolio assignment criteria, specific program student learning outcomes, and the assessment rubric.
  - Each instructor has identified their specific program student learning outcomes (which can be found in the college catalog under each program)
  - An electronic portfolio assignment was created and assigned to students (either as part of a current course assignment or for extra credit). The portfolio is a focused purposeful collection of student work that documents evidence of traditional and nontraditional sources of student learning, progress and achievement in the course that reflects program student learning outcomes.
  - Next Steps: (1) Complete a norming session. (2) Collect assignments (by the end of the semester). (3) Assess portfolios using the rubric. (4) Submit data to TracDat and reflect on process.
