Thinking about the problem in getting faculty to participate. I think it's partly because we hold the meetings on Fridays when few faculty are around. Wondering if for the Fall the meeting time can be changed and that will produce better participation. Also, you'll want to work with Olga and Adrienne during August (flex week) and Sept. to spread the word amongst faculty. Maybe an email blast. So I guess this is an agenda item in the sense of needing to talk about Fall meeting dates. Should have an agenda item also to thank Allan Hansen, who is retiring in July. – Barry
