

BIOLOGY 3

Bio Bootcamp is an intensive one-month program specifically designed to help students make a successful transition to college, develop skill and strategies for success and take the stress out of the first semester at WLAC.

This program is open to any students enrolling in Biology 3 (BIO 3) classes.

Benefits will include:

- A head start on Biology 3 course content
- Discussion and group activities designed to improve student success
- An introduction to the rigors of college-level coursework
- Improved course performance compared to students who do not participate
- Writing and study strategy workshops
