

## Showcase Guidelines for Digital Submissions

### Guidelines

1. **Due Date – Saturday, May 11, 2019, by 3 pm.** Students must send a URL for all digital submissions to: [westpostershowcase@gmail.com](mailto:westpostershowcase@gmail.com). Early submissions are encouraged.
2. The digital project (poster, slideshow, or video) must stand on its own. Each digital submission must be self-explanatory so the judges can view them without a live presentation.
3. The digital project must be no longer than 5 minutes in length.
4. Judging criteria:
  - **Clarity of idea** (makes sense; communicates your research well)
  - **Depth of research** (demonstrates that you did significant research. *You must identify all your sources, both primary and secondary.*)
  - **Aesthetic appeal** (eye-catching creative vision; clearly conveys your intentions)

**In addition, the Student Learning Outcomes Committee will be assessing selected digital projects for Institutional Student Learning Outcomes (ISLOs), which are mapped to courses.** If you are uncertain which ISLOs apply to your course, ask your professor.

### Program/Format

Acceptable Digital formats include:

#### POSTERS

Prezi.com

#### SLIDE SHOWS

Must auto-run or somehow be seen without an operator

With or without voice

Video of Slide Presentation

Prezi.com, Powerpoint
