8 Conversational French (2) CSU (RPT 3)
This course consists of practical, conversational material based on everyday experiences and current events. Not open to native speakers of French.

10 French Civilization (3) UC:CSU
This course consists of lectures and discussions in English on the geography, history, government and institutions of France; the life and customs of its people; literature, arts and sciences; and its contributions to civilization. It is especially recommended to all students of French.

101 French Language Laboratory (1) CSU (RPT 3)
A mediated, independent study course which allows students to enhance their French language skills through audio, video, and computer work in the language lab.

185 Directed Study - French (1) CSU
285 Directed Study - French (2) CSU
385 Directed Study - French (3) CSU
Allows a student to pursue Directed Study in French on a contract basis under the direction of a supervising instructor. Note: Maximum UC credit allowed: 3-1/3 semester units per semester, 6 units total in all or all appropriate subject areas combined. Please note that the granting of transfer credit for courses of this kind is contingent upon a review of the course outline by a UC campus.

GEOGRAPHY
(Also see Earth Science, Environmental Science, and Oceanography)

1 Physical Geography (3) UC:CSU (CAN GEOG 2)
This course is a systematic study of the elements of the physical environment (e.g. weather, climate, landforms, water, soil and vegetation), and an analysis of their interrelationships and patterns of world distribution.

2 Cultural Elements of Geography (3) UC:CSU (CAN GEOG 4)
Note: Geography 1 is not a prerequisite for Geography 2.
The cultural elements of geography, and their correlation with the physical environment are introduced. Population patterns, cultural diversity, livelihood, settlement, environmental modification and perception are emphasized.

15 Physical Geography Laboratory (2) UC:CSU
Prerequisite: Geography 1, or concurrent enrollment in Geography 1.
This course will introduce the student to the description, analysis, explanation and representation of natural phenomena such as: Earth-Sun relationships; Earth’s representation on maps and in air photos; temperature, moisture, and pressure; air masses, fronts, and storms; and landform evolution by tectonic, erosion, and depositional forces.

GEOLOGY
(Also see Earth Science and Oceanography)

1 Physical Geology (3) UC:CSU
This course surveys the materials and structures of the earth and the agents and processes that modify it. A study of rocks and their mineral composition; the work of rivers, winds, glaciers and oceans as agents of erosion; and volcanoes and earthquakes as forces which change the surface of the earth are covered. The main purpose of the class is to stimulate student interest in the geological aspects of the environment in which they will spend their lives.
Note: Geology 1 and Geology 6 taken together fulfill a laboratory science course (CAN GEOL 2).

6 Physical Geology Laboratory (2) UC:CSU
Prerequisite: Geology 1 or concurrent enrollment in Geology 1.
This course deals with laboratory exercises that aid students in the identification of rock-forming minerals, igneous, metamorphic and sedimentary rocks, and the interpretation of topographic and geologic maps.
Note: Geology 1 and Geology 6 taken together fulfill a laboratory science course (CAN GEOL 2).

HEALTH

11 Principles of Healthful Living (3) UC:CSU
This course is required for all students seeking an associate degree. It is also recommended for students entering the teaching profession, or in preparation for health care professions such as nursing, medicine, physical therapy, dentistry, and areas in the biological sciences. Emphasis is placed upon up-to-date and factual information related to personal, family, and public health, as well as approaches to critical thinking with reference to important health issues and publications.
Note: UC Transfer Credit Limit: A maximum of one course from Health will be accepted for UC credit.

12 Safety Education and First Aid (3) UC:CSU
This course meets the certification requirements of both the standard and advanced first-aid courses offered by the American Red Cross. It covers prevention of accidents, care of common injuries, and emergency procedures at an accident scene.
