

MAJOR REQUIREMENTS

DENTAL ASSISTANT

HEALTH SCIENCES DIVISION

PROGRAM OVERVIEW

The Dental Assistant Program is designed to prepare students to work successfully as a member of the dental team.

Dental Assistants can work in a variety of settings such as dental offices of general dentists and dental specialists, dental schools, private and government hospitals and clinics, state and local public health departments.

Upon completion of the program the dental assistant student will be prepared to:

Provide comprehensive dental assisting care to individuals from diverse socioeconomic, educational, and cultural backgrounds according to state regulations in a safe and ethical manner.

Assist in the clinical setting with dental treatment procedures while assuming responsibility for prevention of disease transmission in the work environment. Responsibilities include: using dental instruments and materials, taking and processing dental radiographs, taking impressions and performing many other dental procedures within the scope of dental assisting practice in the state of California.

Perform front office duties including communicating with patients, other health professionals, dental suppliers, business contacts and insurance companies, scheduling appointments, managing insurance and/or financial aspects of the dental practice and using dental management software systems.

The Dental Assistant curriculum is planned in sequence. Satisfactory completion of all courses with a grade of "C" or better in a given semester is required before the student may continue to the second semester of the Dental Assistant Program. All required courses in each semester are co-requisites and prerequisites for the subsequent semester. Students must satisfactorily complete all of the courses in the Dental Assistant Program according to the State of California Dental Practice Act guidelines for curriculum.

Upon completion of the program students will earn a Certificate of Achievement.

Students who wish to also obtain an Associate Degree in Dental Assisting may do so by completing all major requirements and general education courses (Plan B). It is recommended that students consult with the Counseling Office to develop a Student Educational Plan.

NOTE: In order to be admitted into the Dental Assistant Program, students must submit an application for admission directly to the Health Science Division. For additional information, application procedures, and entry requirements please contact a college counselor or call (310) 287-4464 or visit the West Los Angeles College website Health Science Division Dental Assistant Program at www.wlac.edu/alliedhealth

ASSOCIATE OF SCIENCE DEGREE

MAJOR CODE 1240.10

If you are accepted into the Dental Assisting program you will complete the following:

The Associate in Science in Dental Assisting (ASDA) program provides students with a high quality education that prepares them to be highly competent, professional, and caring licensed dental assistants.

| <u>A.S. DEGREE UNIT TOTALS</u> | <u>UNITS</u> |
|--|--------------|
| Required Major Courses (Certificate of Achievement in Dental Assisting) | 29 |
| Electives | 9-10 |
| Plan B General Education Requirements | 22 |
| TOTAL | 60-61 |

PLEASE NOTE: To complete the Associate Degree in Dental Assistant students must complete all of the program core requirements, electives, and general education courses (Plan B). It is recommended that students consult with the Counseling Office to develop a Comprehensive Student Educational Plan. (310) 287-7242

ATTENTION TRANSFER STUDENTS

NOTE: Students expecting to transfer to four-year institutions should see a West Los Angeles College counselor and consult the catalogs of transfer institutions regarding specific requirements for upper-division standing.

MAJOR REQUIREMENTS

DENTAL HYGIENE

HEALTH SCIENCES DIVISION

IMPORTANT NOTE: *The Associate of Science (A.S.) degree described below will not offered after Spring 2017.*

FIND THE BACHELOR'S OF SCIENCE program description, degree path and courses in the "Bachelor's Degree" section, after the "Courses" section.

ASSOCIATE OF SCIENCE

PROGRAM OVERVIEW

The Associate of Science degree in Dental Hygiene is primarily designed for career and technical education and workforce training/ development. The curriculum is not aligned with course requirements for transfer to a specific major at a four-year college or university.

The dental hygienist, as a member of the dental health team, is qualified by education and license to provide primary care to patients for the maintenance of oral health and the prevention of oral disease. The purpose of medical and dental science is to enhance the health of individuals as well as populations. Dental hygienists use scientific evidence in the oral healthcare decision making process impacting their patient care. The dental hygienist is expected to respect the diverse values, beliefs and cultures present in individuals and groups or communities served. In working with patients, dental hygienists must support the right of the individual to have access to the necessary information and provide opportunities for dialogue to allow the individual patient to make informed care decisions without coercion. Facilitating effective communication may require an interpreter and/or translator based on the patient and practitioner's need to communicate. Dental hygienists must realize and establish their professional privileges in accordance with the rights of individuals and groups. In addition, when participating in activities where decisions are made that have an impact on health, dental hygienists are obligated to assure that ethical and legal issues are addressed as part of the decision-making process.

The Commission on Dental Accreditation accredits the Dental Hygiene program. The Commission is a specialized accrediting body recognized by the Commission on Recognition of Post-Secondary Accreditation, and by the United States Department of Education. Admission to the Dental Hygiene program is by special selection. The admission requirements are available from the Counseling Office or the Dental Hygiene Department.

Dental Hygiene classroom and laboratory facilities are located on campus at West Los Angeles College. The students provide dental hygiene services to patients at the UCLA School of Dentistry, Veterans Hospital, MEND Dental Clinic, Children's Dental Center, and UCLA Venice Dental Clinic. Students also observe and participate in various special clinics at UCLA which include radiology, pedodontics, periodontics, oral surgery and hospital dentistry.

For more information, call (310) 287-4464 or visit the Allied Health website at www.wlac.edu/Allied-Health/index.aspx or come to the Dental Hygiene Office located in building MSB room 100.

The curriculum below is planned sequentially. Satisfactory completion of all courses with a grade of "C" or better in a given semester is required before the student may continue to the next semester in Dental Hygiene. All required course in each semester are co-requisites and prerequisites for the subsequent semester. Candidates for graduation must satisfactorily complete the Dental Hygiene Program according to the Commission on Dental Accreditation and the Dental Hygiene Committee of California's Guidelines for curriculum.

Upon completion of the program, students are eligible to take the Dental Hygiene National Board Examination, and upon satisfactory program completion, students are able to take the licensing board examination, and earn an Associates in Science Degree in Dental Hygiene.

Note: Courses are open only to student accepted into the Dental Hygiene Program, who have completed all Plan B General Education Requirement for an Associate degree. The Health requirement is waived for the students accepted into the Dental Hygiene program. See a counselor for your Plan B general education requirements.

MAJOR REQUIREMENTS

WLAC DENTAL HYGIENE PROGRAM LEARNING OUTCOMES (PLOS)

The dental hygiene program will provide opportunities for the student to become competent through an active learning process of organizing, interpreting and synthesizing information. Educational activities will be provided that enable the learner to develop expertise by integrating fundamental knowledge, scientific principles and applied psychomotor skills. Upon graduation, the dental hygienist working under the supervision of a licensed dentist will be able to demonstrate the ability to:

PLO I. Professionalism

The dental hygiene students must appreciate their role as health professionals at the local, state, and national levels. Students will demonstrate the necessary knowledge and values in legal regulations and ethical issues for the practice of dental hygiene.

Examples of Outcome Assessment:

1. National Board Exam Sores: Professional Responsibility and Liability section
2. State of California Law and Ethics for the RDH exam scores
3. E-Portfolio
4. Leadership and participation at Professional Organizations such as ADHA and CDHA

PLO II. Health Promotion and Disease Prevention

The dental hygiene students will demonstrate competency in the performance and delivery of oral health promotion and disease prevention service in public health, private practice and alternative settings. The dental hygiene students will be able to apply principles in assessment, diagnosis, planning, implementation and evaluation of treatment. The graduate must also be prepared to influence others to facilitate access to care and services.

Examples of Outcome Assessment:

1. Research Projects (e.g. RAP, Perio, Table Clinic, ADPIE)
2. National Board Exam Scores: Community Health and Clinical Dental Hygiene section

PLO-III. Patient Care

The students will demonstrate a through foundation in the biomedical, clinical, and behavioral sciences to achieve successful patient treatment outcomes. Student will utilize critical thinking and sound clinical judgment and cultural sensitivity with patients.

Examples of Outcome Assessment:

1. Research presentations and projects
2. Clinical Performance Summary – Product and Process Evaluations
3. Clinic Service Summary
4. E-portfolio – capstone project
5. Clinical Licensing Examination (State Board Exams, WREB exam)

Approved by Dental Hygiene Faculty and Advisory Board 2015

(Approved by the board on 4/15/15 & Approved by Faculty on 5/13/15)

| REQUIRED COURSES for Program Admission | | UNITS |
|--|-----------------------------------|-----------|
| CHEM 60 | Introduction to General Chemistry | 5 |
| OR | | |
| CHEM 51 | Fundamentals of Chemistry | 5 |
| MICRO 20 | General Microbiology | 4 |
| ANATOMY 1 | Introduction to Human Anatomy | 4 |
| PHYSIOL 1 | Introduction to Human Physiology | 4 |
| ENGLISH 101 | College Reading and Composition I | 3 |
| PSYCH 1 | General Psychology I | 3 |
| SOC 1 | Introduction to Sociology | 3 |
| SPEECH 101 | Oral Communication I | 3 |
| TOTAL REQUIRED UNITS | | 29 |

*Additional requirements for Bachelor degree in Dental Hygiene: Statistics, Critical Thinking, and Cultural Diversity courses in coordination with IGETC, CSU, and or GE completion requirements with upper division courses.

Effective Fall 2016, the Associate of Science degree program became a Bachelor of Science in Dental Hygiene degree program. Additional requirements for entrance will be are required.

ATTENTION TRANSFER STUDENTS

NOTE: Students expecting to transfer to four-year institutions should see a West Los Angeles College counselor and consult the catalogs of transfer institutions regarding specific requirements for upper-division standing.
