About Our Warm Up

NANCY SANDER, Professor of ESL, is a certified Iyengar Yoga instructor. Iyengar Yoga is a Hatha Yoga which is precise and emphasizes a home practice. Nancy has been teaching yoga for 18 years and has been to India to study directly with the Iyengars. NOTE: A free faculty/staff yoga class is currently offered on Wednesdays from 12:30 to 1:30 in FA-102. More classes coming in January and the Spring!

Keynote Presentation

LEADERSHIP THROUGHOUT COMMUNITY
Presenter: Barbara Ilowsky, Ph.D.

Who do you consider to be the leaders in the West Los Angeles College CommUnity? Abel Rodriguez, your Union Shop Steward for SEIU? Mary Jane McMasters, chair of Math? Dr. Rose Marie Joyce, interim president? What about your direct supervisor? Whom do the students consider to be the college leaders? And, what about the community at large? You may be surprised; we are all leaders in this community. We all work hard so that our students can succeed in reaching their educational goals. As a team, we will investigate leadership throughout the CommUnity.

Dr. Barbara Ilowsky is a Professor of Mathematics and Statistics at De Anza College in Santa Clara County. She is the previous Project Director for the California Community Colleges Basic Skills Initiative. She was also the first project director for the Community College Consortium for Open Educational Resources, run by the Foothill-De Anza Community College District, and continues to participate on its Steering Committee. She is co-author of an elementary statistics textbook used at dozens of colleges that is now freely available as an OER. Her video lecture series for the course was the first complete course from any community college that was also freely available on iTunesU. She has been honored with numerous awards, both local and national, for her innovative work in mathematics education.

Dr. Ilowsky earned her B.S., Phi Beta Kappa, in Mathematics at the State University of New York at Albany. She earned her A.M. in Statistics at the Wharton School of the University of Pennsylvania and her PhD in Education, focusing on Instructional Design for Online Learning, at Capella University.

A.M. Session Descriptions

A. DE ANZA’S COLLEGE’S MATH PERFORMANCE SUCCESS PROGRAM
Presenter: Dr. Barbara Ilowsky

The MPS program is a learning community model that features a cohort of low-performing mathematics students and employs extended class time, active learning, integrated student support, and a student social cohort maintained over a 3-course developmental through transfer sequence. Ten years of data confirm success the first time through MPS. Learn how to implement such a program for developmental mathematics, English writing, reading and ESL.

Dr. Barbara Ilowsky is a Professor of Mathematics and Statistics at De Anza College in Santa Clara County. Please see Keynote Speaker biography above.

B. LESSONS FROM THE IPOD GENERATION
Presenters: Jim Gaston

Technology has radically transformed the way students read, listen to music, purchase gifts, watch television, make “friends” and socialize. This transformation has forever changed the book, music, television and movie industries. At this session we’ll discuss if higher education is next in line. Are we immune from the decentralizing power of technology? If not, what can we do to help our students learn in a college environment that is significantly different from our own experience? Please join us for a challenging and invigorating discussion.

Jim Gaston, Jim Gaston is an Associate Director of Information Technology for the South Orange County Community College District where he has been privileged to work with a great team that has been awarded several state and national awards for technology innovation. He has a passion for the intelligent use of technology to further the goals of higher education and enjoys using his sense of humor to convey this message. He presents regularly at local, regional and national conferences including CISOA, TechEd, League for Innovation, Educause Western Regional and Educause. He has also been an Adjunct Professor at Irvine Valley College where he taught HTML and Internet courses.
A.M. Session Descriptions...continued

C. STUDENT STRUGGLES PANEL 1
Presenters: Claudia Velasco
What challenges do our students encounter? How do they seek information and help? How do they problem-solve? Listen to a panel of current students, alumni and retirees talk about their challenges and triumphs and how we, the West commUnity, can better assist our students.

P.M. Session Descriptions

D. CONTEXTUALIZED LEARNING: BASIC SKILLS ACROSS THE CURRICULUM
Presenter: Dr. Barbara Illowsky
Students with basic skills needs are in many of our classes. So, how do we teach nursing when students cannot calculate an IV flow or psychology when a normal graph appears or assign essays in history when students cannot write a paragraph? Contextualized Learning integrates content from one discipline into another. Learn about the variety of formats of contextualized learning and brainstorm what will work best in your classrooms.

Dr. Barbara Illowsky is a Professor of Mathematics and Statistics at De Anza College in Santa Clara County. Please see Keynote Speaker biography on page 2.

E. ARE YOU LISTENING? ACTIVE DISENGAGEMENT
Presenters: Heather Davis
Active disengagement is the term used to describe students who are not being disruptive, but are also not participating or paying attention in class. As long as students are not obviously interfering with the learning of others, it may seem permissible. Come learn the cost of active disengagement, its effect on class climate, classroom behavior, instructor energy, and outcomes.

At the conclusion of this session participants will be able to:
1. Identify behavior that personifies active disengagement
2. Describe the cost of active disengagement
3. Implement three techniques to address or prevent active disengagement

Heather Davis is the Program Director for the UCLA Paramedic Education Program in the David Geffen School of Medicine. Her previous position was the Education Program Director for LA County Fire where she managed education programs for over 3000 EMT's and Paramedics. She holds a Master of Science degree from New York Medical College, and is a published author and national speaker. Heather is a Board Member of the National Registry and has served as a Board of Director for the National Association of EMS Educators and Education Chair for the National Association of EMTs. She was honored with the “Heroes of Education” Award in 2006 and the County of Los Angeles Gold Eagle Award for Productivity and Innovation.

F. STUDENT STRUGGLES PANEL 2
Moderator: Claudia Velasco
What challenges do our students encounter? How do they seek information and help? How do they problem-solve? Listen to a panel of current students, alumni and retirees talk about their challenges and triumphs and how we, the West commUnity, can better assist our students.
