

Global Speakers Series

Co-sponsored by the International Centers and Programs at West and UCLA

Global Health in Asia Panel

Food, Health and the World

May Wang, UCLA Community Health Sciences

Challenges and Opportunities for Safe Childbirth in Resource-Limited Systems

Corrina Moucheraud, UCLA Health Policy and Management

Thursday, April 14, 2016

1:00–3:00 p.m.

West LA College

9000 Overland Avenue, Culver City, CA

GC-160

(General Classroom Building, Room 160)

May Wang joined the UCLA Fielding School of Public Health faculty as associate professor in the Department of Community Health Sciences in 2008. She received an undergraduate degree from the National University of Singapore, a master's degree in nutritional science from the University of Texas at Austin, and master's and doctorate degrees in public health from the University of California at Berkeley. After obtaining her doctorate degree, she completed a postdoctoral fellowship at Stanford University School of Medicine where she was trained in the emerging field of pediatric bone health research. Since then, she has conducted research related to child obesity and bone health with a focus on addressing health disparities. She is the recipient of several awards, including the Established Investigator Award from the American Heart Association and Excellence in Education Award from the California Dietetic Association.

Corrina Moucheraud is an Assistant Professor in the Department of Health Policy & Management at the UCLA Fielding School of Public Health. She is a health systems researcher specialized in global health. Her main areas of research include improving quality of care in resource-poor settings, particularly for women and infants; the processes and outcomes of policy implementation at the global and national levels; and incorporating health system information into quantitative methodologies, to develop more nuanced and relevant results for constrained systems. She has participated in research across many countries in Africa and Asia, including Nepal, India, Bangladesh, Nigeria, Kenya, Zambia, Malawi and Tanzania.
